

Smartplay spins a wheel-deal with Luxembourg

Edgewater Park, NJ (December 3, 2008)
- Loterie Nationale of Luxembourg recently contracted with Smartplay International to replace their gaming table with a custom 100-light-segment wheel for their PICCOBELLO game. The colorful new PICCOBELLO wheel will have captivating, bright colored lights to enthrall the audience.

In this game, the player will have a chance to spin the wheel three times, lighting different "jackpot segments" with each spin and being able to win more than once. As there are two different color balls, the player will have to make a choice in which color will be considered the winning one. The contestant will win the amount on the segment his chosen ball lands on and, if that segment is also lit, the player wins the big jackpot!

Established in 1993, Smartplay is dedicated to the creative design, development and manufacture of lottery drawing equipment. The product line has evolved over the years in response to clients' needs by incorporating the latest technology. Smartplay has thereby maintained a position as international leader in the area of lottery drawing machines and customized game show equipment. Smartplay is consistently chosen above other manufacturers due to a reputation for quality and reliability. Smartplay is proud to be the choice of the world's most prestigious lotteries.
